Subject: Harsher remedies needed in MS case

Hello,

I wanted to let you know that I support efforts to seek harsher remedies in the Microsoft antitrust case. The proposed Federal settlement will do nothing to curb Microsoft's anti-competitive practices. I urge you to pursue the case further and hold Microsoft responsible for their illegal actions. Our nation's economy and national security depend on a vibrant innovative technology industry. MS's dominance in operating systems and applications and their insistence on MS only solutions in the server and enterprise markets can only increase the vulnerability of our economy and national security to adverse circumstances. I urge you to reconsider the preliminary settlement provisions and to seek more substantial remedies.

Thanks,

Dr. Joseph E. Borzellino
